

**PRODUCT FEATURES:**

- Designed to provide containment vessel protection in harsh corrosive environments.
- Produced from proprietary compound formulations that offer superior protection and performance proven over more than 35 years of experience.
- Longer service life and the associated reduction in overall life cycle cost of ownership in comparison to wet film coating applications.
- Process and storage chemical vessels can be expected to provide improved reliability and up-time.

**Witt Lining Systems...  
the best choice for you!**

- 45+ years of commitment to industrial lining solutions
- Dedicated to industrial liners only – no ponds, lagoons, pools, etc.
- Innovative product ideas and fabrication techniques
- Honored by US Dept. of Commerce

Property	Typical Performance	Test Method
Hardness	91 ± 5	ASTM D-2240
Tensile	2500 psi	ASTM D-412
Ultimate Elongation	250%	ASTM D-412
Specific Gravity	1.255	ASTM D-792
Color	Black	Visual

These datum, which are believed to be reliable, are published for information use only as it is rarely possible to duplicate actual operating conditions in laboratory testing. Consequently, no guarantee, explicit or implied, is given that similar results will be obtained in actual operating conditions.
